

# ABOUT US

Our company was founded in 2013 by Erik Kuijpers and Cor Datema. Our goal is to provide solutions for people that have limited possibilities. We are focusing our products and services on psychiatry, prisons, forensic institutes, schools and hospitals.

## Erik Kuijpers

Erik has more than 30 years of experience in psychiatry. He was trained as a psychiatric nurse and has worked in various environments: forensic, outpatient care and intensive care. Since 2009 he has held the position of innovation manager at the GGzE (Geestelijke Gezondheidszorg Eindhoven) focusing on projects within Seclusion and Restraint. Erik is specialized in early detection and de-escalation.

## Cor Datema

Cor has a PhD in physics. He worked as a scientific researcher on the detection of landmines. He started his career at Philips Healthcare as a system designer. After this he worked in various other roles: project manager, product marketing manager and supply chain manager. In 2006 he moved within Philips to the start-up business Ambient Experience and in recent years he focused his attention on Healing Environments Consultancy.
